RAJPREET GIRI
FRONT-END DEVELOPER

Professional Profile

I completed BCA in 2016 after that i was entered in web design field & learn about designing & development. From the 3 year i was working as web designer & developer, I'm very sensitive for my work, i love coding make some new . My skills are web designing & develop, If I want to say in designing, then I would like to say that I'm the best in Photoshop, Adobe XD, Illustrator and in web designing my skills is HTML5, CSS3, SASS, Bootstrap4, JavaScript. In frameworks i have experience in jQuery & some more experience in CMS & Programming PHP, WordPress, OpenCart. Mostly worked on E-Commerce websites. I was worked on minimum 15-18 projects & some projects are regarding the bug fixes of design.

Experience

GSP Technologies (From Dec-2019 to till)
Front-end Developer

In Dec-2019 i was join GSP Technologies as a front-end developer. During the job period i was learn many skills & work on new projects (like new cms for me opencart). Mostly i was working on Opencart & Wordpress & learn about new things & e-commerce websites.

During the job my some working project's links are mention below :-

- https://revilorealty.com/ (WordPress)
- https://www.shopo.world/ (OpenCart)
- https://www.hoodmat.com/ (OpenCart)
- https://www.quirurgica.com/en/ (WordPress)

Balaji Groups (From Dec-2017 to Nov-2019)
Web Designer & Front-end Developer

In May-2017 i was join Balaji Groups as a Web designer. I was working 1 year as web designer then as per my best performance & cause of much knowledge of frontend balaji groups promote me as Front-end developer. After that they give me Web designer & front-end resposibilty. I was work with Balaji Groups for 2+ year. During the job i was worked on UI design & frontend coding & responsive designing & logo design. I was make a Landing page & Model's profile page UI design for famous chain2bollywood website.
